FOR SPRING WORK ON BATTLEFIELD

Thirty Men Start their Annual Clean-Up, with Painting and Repairing wherever Needed. Annual Routine.

The men composing the force of artisans and laborers who yearly care for the battlefield, its avenues, grass plots, monuments, and other property, have all been notified to report on Wednesday morning for work which will continue until fall. About thirty men are included and, if the weather is favorable, the activities on the field will be in full swing before the close of the week.

The work is started this year two weeks later than in 1915 when March first was the date set for the beginning of operations. High winds and low temperatures made continuous work seem entirely improbable two weeks ago, so that postponement was ordered.

The first thing to be done when the men get to work on Wednesday will be the repairing of the numerous gutters and water courses over the field. The freezing and thawing always throw out of place a number of stones and they present a very ragged appearance. The effort is always made to put these back into place while the ground is still soft, and in this way to make a more lasting job. Cleaning up of the wooded portions of the field and the general putting in shape of everything will occupy the time of the men for the first week or so.

Painting will be done according to the usual schedule which provides that periodically all the woodwork and iron on the field shall be gone over and kept in perfect condition. Whatever repairs are needed will be quickly attended to, and long before the days of grass mowing are at hand the field will be ship-shape for the spring tourists.

During the summer the regular routine of work will be followed and Gettysburg will live up to its traditions as one of the best equipped and most carefully maintained national parks in the country.

VALUABLE DISCOVERY

Find White Clay Near Dillsburg. Big Deposit of Rich Deposit.

A deposit of exceptionally fine quality of white clay has been found on the side of the mountains near Dillsburg, prospectors striking a vein of more than 50 feet in depth. Harrisburg and Carlisle capitalists have been prospecting at the present time. A number of shafts have been sunk. The white clay found is in an immense bed.

The large brick plant that was erected several years ago, and proved a failure has been partly torn down. The remainder of the buildings will be converted into a clay refining plant. The clay will then be shipped to tile and other manufacturers. The work is being done under the supervision of J. S. Fishel.

STOP ALL TRAINS ON LOCAL TRACKS

Morning Passenger Leaves One Minute Late and All Other Work is Similarly Delayed in Accordance with Order.

Gettysburg contributed its share to the respect paid the memory of the late Theodore Voorhees, president of the Philadelphia and Reading Railroad System today. At eleven o'clock over the entire road all work was stopped for one minute and not a wheel moved. Every train was at a standstill for the sixty seconds and, in compliance with the general order issued to accomplish this, the passenger train due to leave Gettysburg at eleven o'clock was just one minute late in starting.

Freight crews working in the local yards also stopped their activities for a similar period of time while the men in the freight and passenger offices were reminded of the hour for the funeral of their late chief. At the stations all along the line to Harrisburg the same observance was noted and trains were stopped wherever they happened to be at eleven o'clock. The faithfulness with which the order was carried out here was in evidence all over the great system.

Mr. Voorhees was known in Gettysburg by a number of people who are now much concerned in the man to succeed him. It is said that A. F. Dice, a more frequent visitor to Gettysburg than Mr. Voorhees, and possessing a great many acquaintances here, is prominently mentioned for the position. The Franklin Repository, of Chambersburg, says:

"Another son of Franklin county will probably head one of the great railroad systems. The death of President Voorhees of the Reading road places Vice President Agnew T. Dice in direct line for promotion and he will likely be chosen. Mr. Dice was born at Scotland in the house now known as Craig's Hotel. He spent his boyhood days in Franklin county and was a student at the old Chambersburg Academy. Franklin county has already contributed two presidents to the Pennsylvania Railroad."

LEADING HEREABOUTS

Waynesboro the First to Produce a Style Week.

Waynesboro is going to outdo itself in a dress-up week and style show. Tradesmen generally over the whole country are encouraging a dress-up fortnight when every merchant and shopkeeper is expected to brighten up stores and windows and make every public part of their business more inviting. Waynesboro is going to condense its show into a week, beginning April 1, and make that week a big one. The main show will be centered in one or more large rooms, the shops and stores dressing up singly to suit the taste of the management. This is the first of several big weeks for Waynesboro in the spring and summer seasons.

MEDAL CONTEST

Large Audience Present at St. James to Hear Gettysburg Women.

Mrs. Milton R. Rummel won the medal awarded at the temperance oratorical contest in St. James Chapel Monday evening. Others who took part were, Mrs. Philip Houck, Miss Emma Howard, Mrs. T. J. Winebrenner, Mrs. Charles Pfeiffer, Mrs. L. M. Creager, and Mrs. Charles Knox. The program also included an exercise by children and several numbers by a chorus. The contest was well attended.

OXFORD SONS TO ERECT ARMORY

And Plan to Have Suitable Dedication Exercises on Independence Day. Site for Building is Donated.

At a regular meeting of Theodore Pfeiffer, Sons of Veterans Camp No. 60, of New Oxford, a contract was let for the erection of an armory on South Peters street. The new building will be 52 feet long and 24 feet wide, and work will be started on it immediately.

The boys expect to occupy the armory about May 30th. The building will be erected on a lot 30 wide by 180 feet deep, which was donated to the boys by John S. Weaver.

The dedication of the new armory is scheduled to take place on July 4th. At this time there will also be an industrial parade in New Oxford and several prominent men will be invited to make addresses then. The camp has a membership of sixty uniformed men and they anticipate pushing this to the one hundred mark in the near future.

The Sons of Veterans, who have charge of the Memorial Day exercises at New Oxford, are making arrangements to have a larger and more impressive ceremony this year than heretofore.

FENCE ON PLAYGROUND

Would be Necessary if Used for Blue Ridge Base Ball.

At a meeting of the Kurtz Playground Association Monday evening, W. D. Gilbert, W. D. Reynolds, and M. K. Eckert were appointed a committee to confer with the directors of the Gettysburg base ball club relative to the use of the playground diamond this summer for the Blue Ridge games. If the plan carries, it will mean the erection of a fence around the portion of the property to be used, and will also result in some changes in the manner in which the base ball diamond is laid out.

The Playground Association decided to celebrate opening day on June first, and to have it conducted in much the same manner as in other years. This committee was appointed to make the arrangements, H. B. Sefton, W. D. Gilbert, A. B. Plank, Mrs. D. P. McPherson, Mrs. Wayne Keet, and Miss Annie Horner.

MUST FARMERS BUY INSURANCE

Question to be Decided in Order to Settle Finally Argument over the Case. County Agriculturists are Interested.

Adams County farmers who have been rejoicing over the fact that they did not have to take out insurance in the way the ordinary employer has been forced to do, will be concerned to know that the question of what is meant by agriculture as an employment will be passed upon by the State Compensation Board at a hearing to be held in Philadelphia on Thursday.

Under the compensation act agriculture and domestic service were exempted from employers' liability, but the Board ruled that special branches should come under the law and the men engaged in fruit raising, stock raising, dairy farming and similar pursuits would have to assume liability for employees.

The question has now been raised whether the law intended that men engaged in raising vegetables for market, truck gardeners and the like are to be classed with men commonly engaged in farming who have rotation of crops, raise a variety of produce and cattle, have barns and who are popularly classed as farmers. John A. McSparran, of Lancaster county, worthy master of the State Grange, is to argue the matter with the Board.

The following week the Board will sit to hear appeals, the first one being whether a man delivering goods after store hours and injured at that time forms a case for compensation.

SHEARER—KEENEY

Carlisle Couple Keep Wedding Secret a Year.

The statement by friends that they had heard of a Hagerstown marriage license being issued to a Carlisle pair brought to light Monday the marriage almost one year ago of Catherine M. Keeney, a daughter of Jacob M. Keeney, a real estate broker, and Robert Shearer, son of former Revenue Collector R. E. Shearer.

The couple admitted that they were married on April 6, 1915, at the Maryland town and have been keeping the affair a secret. Mrs. Shearer formerly attended the Carlisle High School and the two were in school together. Shearer has been attending Conway Hall and gained a reputation as a star on the team last year. The groom is twenty and the bride eighteen.

TWO WEDDINGS

New Oxford Pastor Marries Couples at his Parsonage.

Miss Edna Miller, daughter of Mr. and Mrs. A. G. Miller, and Clare Wolf, son of Mr. and Mrs. George Wolf, both of Abbottstown, were married by Rev. Walter Garrett, at the Reformed parsonage, New Oxford, on Saturday evening. Mr. Wolf was for a number of years a teacher in the public schools of the county.

Miss Naomi Barnhart, daughter of Martin Barnhart, and Jacob Haar, son of Mr. and Mrs. Edward Haar, both of Abbottstown, were married Saturday evening at the Reformed parsonage, in New Oxford, by Rev. Walter E. Garrett. Mr. and Mrs. Haar will reside in Abbottstown.

TROOPS ON BORDER READY FOR A DASH

Cavalry Concentrated on Arizona State Line.

El Paso, March 14.—In spite of official denials, reports persisted that American cavalry on the Arizona state line has assembled for immediate crossing of the Mexican border, and that they might cross at any moment.

An advance guard of several cavalry troops was collected on that border two days ago, with the prospect that it might be the first force into Mexico.

The point where the cavalry expedition is reported assembled is near San Bernardino, Mexico.

A column entering Mexico from one of these Arizona border points would have a fairly direct route to the mountain passes in Sonora, through which it is feared Villa may escape from the Chihuahua territory into which he has retreated.

Two Mexicans were killed in Columbus the day following the Villa raid. It has been learned. They were shot by civilians who considered their actions suspicious.

Martial law went into effect along the border. American troops entrained under secret orders, are moving along the frontier as fast as the railroads can supply facilities. They are ready for the forward movement that will send them on the trail of Villa and his outlaw band.

EMBARGO ON MUNITIONS

United States Stops Shipments to Mexico by Land and Sea.

San Francisco, March 14.—An embargo on shipments of war munitions from this port to Mexican points was declared by John O. Davis, collector of the port, in accordance with instructions from Washington.

Carranza Ammunition Held Up.

Douglas, Ariz., March 14.—Carranza authorities have asked permission to pass 700,000 rounds of ammunition into Agua Prieta, Mex., but the shipment thus far has been held.

Permits previously issued to pass munitions, arms or explosives at Agua Prieta have been cancelled.

Mexican troops which arrived in Agua Prieta quickly were passed south. Ey Tigre, Mex., and Nogozari, Mex., reported the arrival of reinforcements.

WAR COURSE FOR U. OF P.

Trustees Grant Students' Request and Provost Names Committee.

Philadelphia, March 14.—The trustees of the University of Pennsylvania acted favorably upon the petition of students asking for the installation of a course of military training at the university under the direction of the war department.

Provost Smith was given permission to appoint a committee of five to work with the faculty in making plans for the course. He at once named George Wharton Pepper, John C. Bell, Dr. Robert G. Le Conte, James G. Rosen garden and John Gladwalder as members of the committee.

Say Raiders Came From U. S.

Washington, March 14.—Agents of the department of justice on the Mexican border reported to headquarters that many of the raiders who participated in the Columbus, N. M., raid came from the American side of the border. They had reason to believe, they reported, that other attacks are being planned by Mexicans on this side of the Rio Grande.

Contract Typhus in Mexico.

Laredo, Tex., March 14.—Drs. Kus' and Obitsky, of New York, members of the Rockefeller expedition to Mexico to combat typhus, have been taken to Nuevo Laredo, according to advices reaching here. They probably will be quarantined there.

GERMANS PAUSE IN VERDUN RUSH

But Violent Cannonade Continues Along the Front.

VAUX FIGHTING TERRIFIC

French Storm Foe's Trench in La Pretie Wood—Say Teuton Losses Are Heaviest of War.

London, March 14.—A pronounced pause has come in the German offensive operations against Verdun, so far as the infantry arm is concerned, according to the official bulletins from Paris.

Sunday passed without infantry advances, and the crown prince's troops did not leave their trenches for an attack at any point Sunday night, the French war office says.

The Berlin headquarters statement confirms the French report of the comparative infantry quiet prevailing around Verdun.

All along the Verdun front and farther west along the Aisne river, gigantic artillery duels raged. The thunder of the big guns could be heard on the outskirts of Paris.

The Kaiser is again on the Verdun front and it is believed he will remain there until the battle is decided one way or another, says the Paris Matin. He is attending daily councils of war with his generals, insisting that further efforts be made to take the fortress despite the terrible losses suffered by the Germans up to date.

The German losses in the fighting around Fort Vaux, five miles north east of Verdun, Friday and Saturday surpass all previous records in this war, according to officers who have returned to Paris from Verdun.

Time and time again, and with extraordinary courage, the Germans in columns of four deep, rushed from their trenches, only to melt away under the fire of the French 75, 150 and 210 millimeter guns, which rained shells with deadly accuracy into the marching companies. When the smoke and dust cleared nothing was to be seen but heaps of bodies.

The spur on which the fort is situated is almost perpendicular in certain places.

The German lines were forced to halt, but many Bavarian reservists climbed up on one another's shoulders and struggled up the slope, clinging to angles of rock and grasping tufts of grass.

Again and again these human pyramids collapsed into shapeless gray masses. Where the incline was easier and the attacks therefore more concentrated, the ditches below ran red with blood. At the lowest estimate the attackers lost two-thirds of their effectives.

The fighting also was desperate in the extreme when regiments from the fifteenth and eighteenth German army corps attacked the village of Vaux Friday.—Dawn was breaking and over the country hung a heavy white mist, making everything invisible beyond a hundred yards. This enabled the Germans to get within rushing distance of the French front trenches, but although they outnumbered the defenders six to one, it took four distinct assaults before the first column of Germans won the shelter of a small group of houses beyond the church of Vaux.

They then organized an assault upon the church, and the French, being unable to bring up reinforcements on account of the German curtain of fire, withdrew their advanced elements which were in danger of being surrounded. Five times the North Prussian regiments rushed to attack the church, but every time they left the shelter of the ruined houses they were beaten back by the fire from machine guns and the shrapnel from the French 58-millimeter guns.

In the meantime, in their rear, a curtain of fire was kept up by the French 75's and 210's, so that it was impossible for munitions and reinforcements to be brought up for their benefit, and the fight died down on Friday night from sheer exhaustion.

An Amsterdam despatch to the Central News says on account of the German offensive at Verdun, the Dutch Belgian frontier has been closed for several weeks. That part south of Maastricht has been reopened and this is commented on in Holland as probably indicating that the Germans consider their offensive near an end.

The despatch adds that eighty-one more hospital trains with wounded Germans from Verdun have passed through Luxembourg.

FOREIGNERS IN MEXICO CITY FLEE TO COAST

Americans in Danger Because of Broken Railroad.

Mexico City, March 14.—Many foreigners are leaving the city and there is an undercurrent of excitement among all classes.

Americans virtually trapped here are in extreme danger, or will be soon.

Train communication with Vera Cruz is broken, owing to the activities of Zapatistas along the Mexican railway, particularly near Vera Cruz. The followers of General Higinio Aguilar, who is working with the Serano Indians of the state of Oaxaca, have also been busy around Puebla, and have attacked trains on the Mexican railway. Nothing of those happenings has been published in the newspapers in Mexico—not even the fact that railroad communication has been cut off "temporarily."

It is feared that as soon as the public here learns of the crossing of the border of American troops there will be a repetition of the riotous scenes of April 21, 22 and 23, 1914, when the news of the taking of Vera Cruz by the Americans reached the capital.

PEACE MR. WILSON'S AIM

Tells Scandinavian Visitors of Efforts to Avoid War.

Washington, March 14.—President Wilson assured nearly a hundred members of the Scandinavian Society of New York that he is doing everything in his power to keep the United States out of war.

The members had called at the White House to express their appreciation of his efforts.

After thanking them, the president said:

"I can assure you that nothing is nearer my heart than keeping the country out of war, and I am doing everything I can do to show his preference for peace, and for justice and for the things that make it impossible for nations to fight each other—real understandings, friendships and fair dealings."

Chinese Typewriters.

A Chinese typewriter is a wonderful contrivance. It has 4,200 characters. It has only three keys. It can make 50,000 letters or characters by combinations of the basic 4,200. To write a letter you turn a cylinder upon which are the 4,200 characters until the right one comes opposite the keyboard of the guide on another cylinder. After striking the printing key, just as on an American machine, you begin a still hunt for the next character which you are to print, and so on while reason lasts.—Christian Herald.

Pleasing Superiority.

"Why are there so many old jokes on the stage?" "Oh, they go good. That is due to the feeling of superiority produced by the fact that you know the answer, while the actor zink who is being told the joke apparently does not."—Louisville Courier-Journal.

Midvale Amends Charter.

Wilmington, Del., March 14.—The Midvale Steel and Ordnance company increased its capital stock from one hundred million to one hundred and fifty million dollars, by filing amendment to charter at Dover and paying state tax of \$2600.

Livestock Burned to Death.

Seaford, Del., March 14.—A large barn, carriage house and granary on the farm of the late Alexander Rutter were burned. Four horses, six cows, several hogs and a quantity of hay and grain were lost. The loss is estimated at \$5000.

DON'T GO TO BED WITH COLD FEET

Says: "Often Brings on Attacks of Acute Rheumatism."

An ounce of prevention is worth a pound of cure, and people who are subject to attacks of rheumatism should never go to bed with cold feet.

A whole lot is being said about taking salts and effervescent tablets for rheumatism and sciatica, but those who suffer sharp twinges and painful swollen joints need something powerful to overcome their piteous suffering.

Any broad-minded druggist will tell you that one-half teaspoonful of Rheuma taken once a day is driving more rheumatism out of afflicted people than all the salts on earth. Right in this neighborhood The People's Drug Store and all druggists sell large quantities of it, and it's the surest and most inexpensive remedy—about 50 cents a bottle.

Our First 1916 Message to our Farmer Friends

Now the farmer must needs be thinking of purchasing a new plow or cultivator or perhaps a wagon, or some other necessary farm implement. Let us tell you of the splendid, dependable line of farm machinery we sell. The very best made implements sold to-day anywhere.

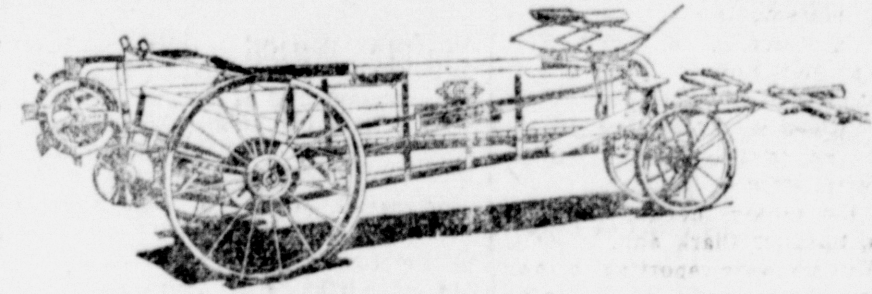

Deering Binders, Mowers, Horse Rakes & Hay Tedders

These are noted for being the best made machines on the market. They run lighter than any other make and have taken the Grand prize at all Expositions.

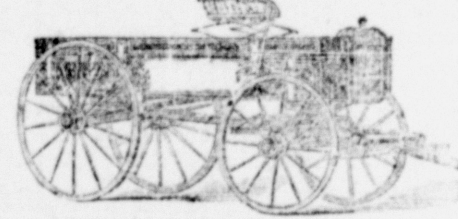

Hay Loaders and Side Delivery Rakes. Guaranteed perfect in construction Syracuse Plows and Oliver Chilled Plows of all kinds.

Double and Single Row Corn Planters. Albright & International Cultivators.

We also sell the LOW
CORN KING MANURE
SPREADER. With this
Spreader you can haul more
loads in one day than with
most any other Spreader,
because you do not have to drive so far to get a load off, as it spreads more than twice
the width as the average Spreader, and runs as light if not lighter than any other
Spreader sold.

WAGONS? Studebaker and Weber

Yes we have the STUDEBAKER and WEBER. Both of these are noted for their quality everywhere. We also have the DUMP CARTS.

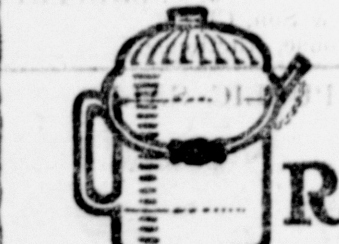

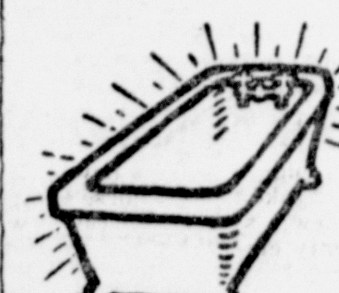

We have DISC HARROWS and other kinds of HARROWS and Small CULTIVATORS.

COME and take a look at our Line of Machinery. You will be pretty sure to find just what you want right here and we stand back of everything we sell.

Every trace of dirty, soapy water gone—the porcelain white and clean. Simple and practical, isn't it?

Surprising the number of ways Atlantic Rayolight Oil does help keep the home bright, cheery and clean. Thousands of careful housekeepers tell us (as a result of our advertised request) that Atlantic Rayolight Oil is the very best thing for such purposes as polishing windows and mirrors, brightening up linoleum and restoring dull and faded carpets.

Of course, for this kind of work, the very finest kerosene is needed; that's why these experienced, competent women use

ATLANTIC Rayolight OIL

And it's ever so much better for purposes of lighting and heating.

You see it burns slowly and economically, yielding an intense, constant, steady heat without a jot of smoke or smell. A steady, flickerless, soft, white light beams from almost any lamp in which it is burned, but to get the best and most light for the least money, use a Rayo Lamp filled with Atlantic Rayolight Oil.

You buy it certain that it will give the greatest heat, the finest light and that careful refining makes it best for household purposes. But, with all these advantages, Atlantic Rayolight Oil costs no more than the unknown, unreliable kind.

URGE SENATE TO PREPARE FOR WAR

Chamberlain Pleads For Preparedness Program.

BORAH SUPPORTS MOVE

Endorses the President's Action in Mexico, But Says No Man Knows the Consequences.

Washington, March 14.—Danger of grave complications growing out of the sending of American troops into Mexico to hunt down Villa and his bandits was urged in the senate by Senator Chamberlain, chairman of the military committee, and Senator Borah, Republican, in advocating laying aside temporarily all other legislation in order to dispose promptly of preparedness measures.

Their statements precipitated a general discussion, in which Senators Vardaman and Simmons deprecated suggestions that the United States was not prepared to deal with any situation that might arise in its relations with Mexico.

While the senate debate was in progress, Speaker Clark and Majority Leader Kitchin were reporting to their colleagues of the house on a conference with the president, who urged them to speed up the legislative program with a view to action on all important measures in time for adjournment in June. The house leaders agreed that it would be impossible to accomplish the task ahead in so short a time, although steps will be taken to hurry on with the work as rapidly as possible.

Demands for immediate action on the preparedness bills were made in the senate when the matter of taking up the public lands, water power and rural credit legislation was broached. Senator Chamberlain declares he would not be surprised if, as a result of the punitive expedition into Mexico, General Villa were proclaimed a national hero and 50,000 Mexican troops rallied to his standard to resist American troops.

Senator Borah, who has been one of the most persistent critics of the administration's Mexican policy up to this time, gave complete endorsement to the president's action, but warned congress to prepare for war, declaring that no man knew what consequences might follow the invasion of Mexico, even on a punitive expedition. He referred to the president's recent warnings to congress concerning international complications, and said congress had not heeded the warnings, but had sat still with regard to national defense legislation.

Senator Borah also said that unless there was extraordinary speeding up in congress, the national defense fight would come in the midst of a presidential campaign and would then, despite any efforts to prevent it, be clouded with politics.

Senator Hoke Smith declared that the military committee could do the country no greater service than by bringing in immediately a bill to double the enlisted strength of the army as an emergency measure, leaving the general reorganization bill for later consideration.

When Speaker Clark and Representative Kitchin returned from the White House they held a conference with other house leaders in Speaker Clark's office. It was the consensus of opinion that under the greatest pressure the president's program could not be disposed of before fall. The speaker said the house might clear the decks by September, but Republican Leader Mann said it would take until December.

FIREBUG AT QUARRYVILLE

Seven Buildings Destroyed in Blaze That Raged for Five Hours. Quarryville, Pa., March 14.—Fire believed to have been caused by an incendiary, raged for five hours.

A general store, a saddlery, three dwellings, an ice house, a barber shop and several sheds were destroyed. The local fire department was unable to gain control over the flames and appealed for aid from surrounding towns. Two engine companies were sent by rail from Lancaster. Estimated damage average \$55,000, partly covered by insurance.

Canadian Cities Vote "Dry."

Winnipeg, Man., March 14.—Mantoba went "dry" by a two to one vote and redeemed the pledge of Premier Norris, elected last year, that at the earliest date possible he would submit a prohibition measure. Winnipeg carried the measure by nearly three to one. The measure is for straight prohibition.

Elevator Kills Woman.

Media, Pa., March 14.—Mrs. Sallie B. Lewis, sixty-five years old, widow of George M. Lewis, a former business man of this county, died at the Media hospital as the result of injuries received in an elevator accident in a Philadelphia store last week.

Brothers Die in Few Hours.

Hazleton, March 14.—Frank and Nicholas, the three and four-year-old sons of Mr. and Mrs. Anthony Mott of Hazleton, died a few hours apart and were buried here side by side.

Macaulay's Wonderful Memory.

It is said that Macaulay's memory was so retentive that, after reading a book once he could give all the salient points of it, and recite many long passages of it verbatim.

EXPLOSION DESTROYS SHIP

Series of Detonations Follow Fire of Twenty-four Hours in Craft. St. John, N. B., March 14.—The British steamship Matana, after being on fire for more than twenty-four hours, was sunk at her dock soon after a series of explosions, during which her commander and designer, Captain L. B. Gilliam, was killed. Captain Gilliam's body was recovered. It is expected the hull of the vessel may be raised and refitted. The cargo, which was destined for New Zealand, probably was destroyed. The fire was discovered early Sunday, and the Matana, which was ready to sail, was towed back to her dock, where firemen apparently subdued the flames. Later several explosions, thought to have started from a quantity of heated calcium carbide, caused a second fire, which burned so fiercely that the sea-cocks were opened and the vessel was allowed to sink.

RUSSIANS 50 MILES FROM MESOPOTAMIA

Capture Kirind, 130 Miles From Bagdad.

Petrograd, March 14.—The Russian war office announces the occupation by the Russian army in Persia of the city of Kirind, fifty miles due west from Kermanshah and situated on the road from Hamadan to Bagdad. Kirind lies about fifty miles east of the Mesopotamian frontier and its capture places the Russians within about 130 miles of Bagdad.

Continuation of the advance is regarded as certain not only to bring relief in the near future to the British beleaguered in Kut-el-Amara, but to result in the conquest of the entire Mesopotamian region. The advance on Kirind was made by the Russian column that took Kermanshah on February 25.

The Persian advance is one of three operations which the Russians have been pushing steadily since the capture of Erzerum on February 16.

Along the Black sea coast, supported by warships, another force is moving toward Trebizond, having captured Ishpir on February 24 and Rizeh on March 7, and has now passed the Kala potamos, a river only twenty miles from Trebizond. A third column, from the Lake Van region, captured Mush on February 18 and Bitlis on March 2.

GETS \$12,500 FOR LOST LOVE

Janitor's Wife Awarded That Amount Against Wealthy Widow.

New York, March 14.—A supreme court jury decided that \$12,500 is proper restitution for the theft of a janitor's love.

This amount was awarded to Mrs. Elizabeth Carey, the mother of thirteen children, in her \$50,000 suit against Mrs. Minerva B. Toler, a wealthy widow, for alienating the affections of her husband, Patrick C. Carey, once janitor of the Berkeley Arms apartments.

The testimony showed that the widow and the janitor first met at a movie theatre. Hundreds of telegrams, letters and postal cards bursting with erotic sentiment were introduced in evidence as coming from the fair widow.

Mrs. Wilson's Gift Aids German R. C. Kansas City, Mo., March 14.—A handkerchief donated by Mrs. Wood Ross Wilson to the German Red Cross bazaar here was auctioned off for \$54.50 to Conrad H. Mann, former Federal League magnate. The sum obtained from the handkerchief swell the total raised by local German Red Cross work to \$1100. It was announced.

What Fashionable Women Will Wear This Season.

Styles Described by G. W. WEAVER & SON

— OF —

The Store That Sells Wooltex.

A graceful, youthful figure.

That will be the aim of every woman who wants to be in style, this Spring. This does not mean that women will try to look like sixteen-year-old girls.

Rather, they will choose clothes that give graceful, youthful lines, lines that indicate the natural poise, activity and attractiveness of young womanhood.

Skillful tailoring has much to do with giving clothes the graceful curves of youth. And just as the good cook requires the best ingredients for her cakes, so the expert tailors require the best materials for garments that they recommend to stylish dressers.

FASHION'S PROMINENT FEATURES

In suits and coats, the most fashionable features are the incurve at the waist, without being close fitting, and the sharply flared rippling plaits below the waistline.

Many jackets and coats have almost a wing-like flare. This feature is carried out in a smaller way in the flared cuffs which finish the new bell sleeves.

Plain materials and checks are preferred for suits. The plain materials are frequently ornamented with silk embroidery and inlays of taffeta.

For sport coats there are new novelty weaves of white wool and fancy coating in navy, Copenhagen Holland blue, old rose, maize, green and red.

Silks are very fashionable and promise to grow more popular as the season advances.

Smartest Skirts Are Short

As skirts are all fuller, either in circular models or plaited, they give the smartest appearance when worn quite short.

Eight to ten inches from the ground is the most fashionable length. Even conservative women will wear their skirts six inches from the ground.

The new short skirts are most convenient. With trim footwear and hosiery to match, they are genteel and very pleasing in appearance.

This best store in Adams County is Now Showing Assortments of Wooltex and other Ready-to wear Women's and Children's Clothes seldom found outside of a large city store.

Karo The People's Syrup in Every American State

IMAGINE the thousands of people who are enjoying Karo with griddle-cakes every morning for breakfast. A multitude of happy folk from the Atlantic to the Pacific. Old, young and the middle aged—rich and poor—laboring man and bank president—everybody enjoying the National Syrup, Karo.

There is a fine place for Karo in your home and it's well to order by the dozen cans or more.

Send Karo Labels and Get This Solid Aluminum Griddle At a Saving of \$1.40

Send us 85c in stamps or money order for this 10 1/2 inch Solid Aluminum Griddle which sells in stores regularly for \$2.25. We will send it to you with all forwarding charges prepaid provided you send us with the remittance labels from 50 cents worth of Karo.

Our reason for placing this griddle in your kitchen for less than wholesale cost is because we want Karo used on the finest cakes that can be baked—so everyone will know how delicious it is. The griddle needs no greasing—and there is no smoke in the kitchen. The griddle heats uniformly over entire baking surface so each cake is baked all alike all over. The griddle is light to handle—bright as a dollar on both sides and easily kept so. Send at once and get your griddle while they last.

COURT REFUSES
THREE LICENSES

Hotel Washington and Hartzell Cafe Both Turned Down on Account of Unfitness of Applicants. Judges McPherson and Dicks Think Both Places Necessary. Central Hotel at York Springs Granted License. Judge Miller against all Four Places against which Remonstrances were Filed.

After a delay of a month and a half from the time of regular license court the decisions concerning the applications for liquor licenses against which remonstrances were filed have been handed down this evening. The only one of the four applications to be granted is that of the Central Hotel in York Springs. The second application, of Charles A. Hamilton, for York Springs was refused on the ground of lack of necessity, due to the fact that the license of the Central Hotel had just been granted.

Both the applications in Gettysburg, Hartzell's restaurant and the Hotel Washington, are refused on the ground of unfitness of the applicants. In the Hartzell application all three members of the court concur as to unfitness, and a separate opinion is filed by Judges McPherson and Dicks stating they are convinced of the necessity for the place but that they do not think they can under the law grant the license for the purpose of transfer. Essentially the same opinion is given by them in the Kleinfelter case. In every instance Judge Miller objects to the granting of license upon either pretext.

The only case in which every member of the court is of the same opinion is in the unfitness of the applicant for the Hartzell restaurant license. Judge Dicks believes there is necessity for the second hotel in York Springs but he is overruled by Judges McPherson and Miller.

There was no intimation of what the decisions would be and they were not filed until within a few minutes of five o'clock this evening. In this connection The Times is glad to announce to its subscribers and patrons that whenever an important court decision is withheld until too late for publication in the regular editions of the paper, a special edition will inform them of the news regardless of the hour it "breaks."

There has not been for many years a license court in this county in which so keen an interest was taken. For two weeks in January the hearings on the applications and remonstrances dragged along, punctuated by some interesting testimony but mostly monotonous through long continued arguments for counsel on both sides. Notwithstanding these delays, the court room was filled for most sessions and in some instances persons were turned away by reason of their being unable to secure seats.

The license court was interrupted by the regular January sessions and resumed after their close. It was confidently expected that a decision would be handed down on March sixth, but the Court stated then that it would hear argument on the legality of granting of license for the purpose of transfer.

The opinions in each case are as follows:

Hotel Washington, Gettysburg.
Oliver Kleinfelter, Applicant.

And now, March 14, 1916, after due hearing and careful consideration of the petition and remonstrance filed, of the evidence presented, and of the argument of counsel, and of the facts which are known to the Court, and common knowledge in the community affected, and having had due regard for the number and character of the petitioners for and remonstrators against this application, we have been led to the conclusion that in the exercise of the discretion vested in us by the law, this license should be refused. The license is hereby refused.

DONALD P. McPHERSON,
E. P. MILLER.

I join in this decree because of the unfitness of the applicant to have a license under the evidence presented. I am persuaded, under the facts, that the license applied for is necessary for the accommodation of the public and the entertainment of strangers and travelers, and I would join in a grant of the license for the purpose of transfer to a fit person, on or before April 1st, 1916, if I felt I had, under the law the power and authority to make a grant of license for this purpose.

I am convinced however, that under the law the license can be granted only when the necessity for the license and the fitness of the applicant are found affirmatively. These conditions do not exist in this present case and therefore I join in the decree refusing this license.

DONALD P. McPHERSON,

I do not join in the above decree, as having considered all the matters required to be considered by law, I have concluded that the license applied for is necessary for the accommodation of the public and the entertainment of strangers and travelers, and that the applicant is a fit person to exercise such license. But in view of the conclusion of the other members of the Court on this application and in order to preserve it for the accommodation

of the public, I would join in a grant of this license for the purpose of transfer to another fit applicant if I felt I had under the law, authority to grant a license for this purpose.

W. HOWARD DICKS.

Hartzell's Cafe, Gettysburg.
George T. Hartzell, Applicant.
And now, March 14, 1916, after due hearing and careful consideration of the petition and remonstrance filed, of the evidence presented, and of the argument of counsel, and of the facts which are known to the Court and common knowledge in the community affected, and having had due regard for the number and character of the petitioners for and remonstrators against this application, we have been led to the conclusion that, in the exercise of the discretion vested in us by the law, this license should be refused. The same is hereby refused.

DONALD P. McPHERSON,
W. HOWARD DICKS,
E. P. MILLER.

We join in this decree because of the unfitness of the applicant to have a license. Central Hotel, York Springs.
Irvin E. Weaver, Applicant.
And now, March 14, 1916, after

due hearing and careful consideration of the petition and remonstrance filed, of the evidence presented, and of the argument of counsel, and having had due regard for the number and character of the petitioners for and remonstrators against the said application we are led to the conclusion that, in the exercise of the discretion vested in the Court by the law, this license should be granted to accommodate the substantial, present, legal demand for the sale of liquors in York Springs, arising from said Borough and its environs and from the strangers and travelers coming there together with the demand for general hotel accommodations therein.

In granting this application for license we have taken into consideration the openness and other advantages of the location of the house for which it is desired and of the apparent preference for this location on the part of the citizens of York Springs. We find that this license is necessary for the accommodation of the public and for the entertainment of strangers and travelers, and that the applicant is a fit person and hereby grant this license and approve the bond.

DONALD P. McPHERSON,
W. HOWARD DICKS.

I would refuse this license, having taken into consideration all the matters required by law to be considered in passing upon applications for liquor licenses, I have concluded that there is no present legal necessity therefor.

E. P. MILLER.

York Springs Hotel.

Charles A. Hamilton, Applicant
And now, March 14th, 1916, after due hearing and careful consideration of the petition and remonstrance filed, of the evidence presented, and of the argument of counsel, and having had due regard for the number and character of the petitioners for and remonstrators against the said application, we are led to the conclusion that in the exercise of the discretion vested in the Court by the law, the license should be refused on the ground that there exists no present legal necessity therefor; one license having been granted this day in said Borough of York Springs.

DONALD P. McPHERSON,
W. HOWARD DICKS.

I would refuse the license, having taken into consideration all the matters required by law to be considered in passing upon application for liquor license I have concluded that there is no present legal necessity for any license in said Borough of York Springs.

FOR SPRING WORK
ON BATTLEFIELD

Thirty Men Start their Annual Clean-Up, with Painting and Repairing wherever Needed. Annual Routine.

The men composing the force of artisans and laborers who yearly care for the battlefield, its avenues, grass plots, monuments, and other property, have all been notified to report on Wednesday morning for work which will continue until fall. About thirty men are included and, if the weather is favorable, the activities on the field will be in full swing before the close of the week.

The work is started this year two weeks later than in 1915 when March first was the date set for the beginning of operations. High winds and low temperatures made continuous work seem entirely improbable two weeks ago, so that postponement was ordered.

The first thing to be done when the men get to work on Wednesday will be the repairing of the numerous gutters and water courses over the field. The freezing and thawing always throw out of place a number of stones and they present a very ragged appearance. The effort is always made to put these back into place while the ground is still soft, and in this way to make a more lasting job. Cleaning up of the wooded portions of the field and the general putting in shape of everything will occupy the time of the men for the first week or so.

Painting will be done according to the usual schedule which provides that, periodically all the woodwork and iron on the field shall be gone over and kept in perfect condition. Whatever repairs are needed will be quickly attended to, and long before the days of grass mowing are at hand the field will be ship-shape for the spring tourists.

During the summer the regular routine of work will be followed and Gettysburg will live up to its traditions as one of the best equipped and most carefully maintained national parks in the country.

VALUABLE DISCOVERY

Find White Clay Near Dillsburg. Big Vein of Rich Deposit.

A deposit of exceptionally fine quality of white clay has been found on the side of the mountains near Dillsburg, prospectors striking a vein of more than 50 feet in depth. Harrisburg and Carlisle capitalists have been prospecting at the present time. A number of shafts have been sunk. The white clay found is in an immense bed.

The large brick plant that was erected several years ago and proved a failure has been partly torn down. The remainder of the buildings will be converted into a clay refining plant. The clay will then be shipped to tile and other manufacturers. The work is being done under the supervision of I. S. Fishel.

STOP ALL TRAINS
ON LOCAL TRACKS

Morning Passenger Leaves One Minute Late and All Other Work is Similarly Delayed in Accordance with Order.

Gettysburg contributed its share to the respect paid the memory of the late Theodore Voorhees, president of the Philadelphia and Reading Railroad System to-day. At eleven o'clock over the entire road all work was stopped for one minute and not a wheel moved. Every train was at a standstill for the sixty seconds and, in compliance with the general order issued to accomplish this, the passenger train due to leave Gettysburg at eleven o'clock was just one minute late in starting.

Freight crews working in the local yards also stopped their activities for a similar period of time while the men in the freight and passenger offices were reminded of the hour for the funeral of their late chief. At the stations all along the line to Harrisburg the same observance was noted and trains were stopped wherever they happened to be at eleven o'clock. The faithfulness with which the order was carried out here was in evidence all over the great system.

Mr. Voorhees was known in Gettysburg by a number of people who are now much concerned in the man to succeed him. It is said that A. F. Dice, a more frequent visitor to Gettysburg than Mr. Voorhees, and possessing a great many acquaintances here, is prominently mentioned for the position. The Franklin Repository, of Chambersburg, says:

"Another son of Franklin county will probably head one of the great railroad systems. The death of President Voorhees of the Reading road places Vice President Agnew T. Dice in direct line for promotion and he will likely be chosen. Mr. Dice was born at Scotland in the house now known as Craig's Hotel. He spent his boyhood days in Franklin county and was a student at the old Chambersburg Academy. Franklin county has already contributed two presidents to the Pennsylvania Railroad."

LEADING HEREABOUTS

Waynesboro the First to Produce a Style Week.

Waynesboro is going to outdo itself in a dress-up week and style show. Tradesmen generally over the whole country are encouraging a dress-up fortnight when every merchant and shopkeeper is expected to brighten up stores and windows and make every public part of their business more inviting. Waynesboro is going to condense its show into a week, beginning April 1, and make that week a big one. The main show will be centered in one or more large rooms, the shops and stores dressing up singly to suit the taste of the management. This is the first of several big weeks for Waynesboro in the spring and summer seasons.

MEDAL CONTEST

Large Audience Present at St. James to Hear Gettysburg Women.

Mrs. Milton R. Rimmel won the medal awarded at the temperance oratorical contest in St. James Chapel Monday evening. Others who took part were, Mrs. Philip Houck, Miss Emma Howard, Mrs. T. J. Winebrenner, Mrs. Charles Pfeffer, Mrs. L. M. Creager, and Mrs. Charles Knox. The program also included an exercise by children and several numbers by a chorus. The contest was well attended.

OXFORD SONS TO
ERECT ARMORY

And Plan to Have Suitable Dedication Exercises on Independence Day. Site for Building is Donated.

At a regular meeting of Theodore Pfeiffer, Sons of Veterans Camp No. 60, of New Oxford, a contract was let for the erection of an armory on South Peters street. The new building will be 52 feet long and 24 feet wide, and work will be started on it immediately.

The boys expect to occupy the armory about May 30th. The building will be erected on a lot 30 wide by 180 feet deep, which was donated to the boys by John S. Weaver.

The dedication of the new armory is scheduled to take place on July 4th. At this time there will also be an industrial parade in New Oxford and several prominent men will be invited to make addresses then. The camp has a membership of sixty uniformed men and they anticipate pushing this to the one hundred mark in the near future.

The Sons of Veterans, who have charge of the Memorial Day exercises at New Oxford, are making arrangements to have a larger and more impressive ceremony this year than heretofore.

FENCE ON PLAYGROUND

Would be Necessary if Used for Blue Ridge Base Ball.

At a meeting of the Kurtz Playground Association Monday evening W. D. Gilbert, W. D. Reynolds, and M. K. Eckert were appointed a committee to confer with the directors of the Gettysburg base ball club relative to the use of the playground diamond this summer for the Blue Ridge games. If the plan carries, it will mean the erection of a fence around the portion of the property to be used, and will also result in some changes in the manner in which the base ball diamond is laid out.

The Playground Association decided to celebrate opening day on June first, and to have it conducted in much the same manner as in other years. This committee was appointed to make the arrangements. H. B. Sefton, W. D. Gilbert, A. B. Plank, Mrs. D. P. McPherson, Mrs. Wayne Keet, and Miss Annie Horner.

MUST FARMERS
BUY INSURANCE

Question to be Decided in Order to Settle Finally Argument over the Case. County Agriculturists are Interested.

Adams County farmers who have been rejoicing over the fact that they did not have to take out insurance in the way the ordinary employer has been forced to do, will be concerned to know that the question of what is meant by agriculture as an employment will be passed upon by the State Compensation Board at a hearing to be held in Philadelphia on Thursday.

Under the compensation act agriculture and domestic service were exempted from employers' liability, but the Board ruled that special branches should come under the law and the men engaged in fruit raising, stock raising, dairy farming and similar pursuits would have to assume liability for employees.

The question has now been raised whether the law intended that men engaged in raising vegetables for market, truck gardeners and the like are to be classed with men commonly engaged in farming who have rotation of crops, raise a variety of produce and cattle, have barns and who are popularly classed as farmers. John A. McSparran, of Lancaster county, worthy master of the State Grange, is to argue the matter with the Board.

The following week the Board will sit to hear appeals, the first one being whether a man delivering goods after store hours and injured at that time forms a case for compensation.

SHEARER—KEENEY

Carlisle Couple Keep Wedding Secret a Year.

The statement by friends that they had heard of a Hagerstown marriage license being issued to a Carlisle pair brought to light Monday the marriage almost one year ago of Catherine M. Keeney, a daughter of Jacob M. Keeney, a real estate broker, and Robert Shearer, son of former Revenue Collector R. E. Shearer.

The couple admitted that they were married on April 6, 1915, at the Maryland town and have been keeping the affair a secret. Mrs. Shearer formerly attended the Carlisle High School and the two were in school together. Shearer has been attending Conway Hall and gained a reputation as a star end on the team last year. The groom is twenty and the bride eighteen.

GRANTS DEMAND OF CARRANZA

Way is Cleared For Pursuit of Bandit Villa.

A RECIPROCAL AGREEMENT

First Chief's Troops May Enter This Country and Arrest Americans Who Commit Depredations in Mexico.

Washington, March 14.—The United States accepted General Carranza's proposal for a reciprocal arrangement by which either his troops or American troops may pursue bandits on either side of the border.

Secretary of State Lansing, after a conference with President Wilson, announced that the United States had reached an agreement with Carranza and had placed its note of acceptance and a supplementary statement explaining its purposes, in the hands of Eliseo Arredondo, General Carranza's ambassador designate.

The text of the reply to Carranza's proposal, as sent to American Consul Silliman, who is with the first chief at Queretaro, Mexico, follows:

"The government of the United States has received the courteous note of Senor Acuna and has read with satisfaction his suggestion for reciprocal privileges to the American and Mexican authorities in the pursuit and apprehension of outlaws who infest their respective territories lying along the international boundary, and who are a constant menace to the lives and property of residents of that region.

"The government of the United States, in view of the unusual state of affairs which has existed for some time along the international boundary and earnestly desiring to co-operate with the de facto government of Mexico to suppress this state of lawlessness, of which the recent attack on Columbus, N. M., is a deplorable example, and to insure peace and order in the region contiguous to the boundary between the two republics, readily grants permission for military forces of the de facto government of Mexico to cross the international boundary in pursuit of lawless bands of armed men, who have entered Mexico from the United States, committed outrages on Mexican soil, and fled into the United States, on the understanding that the de facto government of Mexico grants the reciprocal privilege that the military forces of the United States may pursue across the international boundary into Mexican territory lawless bands of armed men who have entered the United States from Mexico, committed outrages on American soil and fled into Mexico.

"The government of the United States understands that in view of its agreement to this reciprocal arrangement proposed by the de facto government the arrangement is now complete and in force, and the reciprocal provided thereunder may accordingly be exercised by either government without further interchange of views.

"It is a matter of sincere gratification to the government of the United States that the de facto government of Mexico has evinced so cordial and friendly a spirit of co-operation in the efforts of the authorities of the United States to apprehend and punish the bands of outlaws, who seek refuge beyond the international boundary in the erroneous belief that the constituted authorities will resent any pursuit across the boundary by the forces of the government whose citizens have suffered by the crimes of the fugitives.

"With the same spirit of cordial friendship the government of the United States will exercise the privilege granted by the de facto government of Mexico in the hope and confident expectation, that by their mutual efforts lawlessness will be eradicated and peace and order maintained in the territories of the United States and Mexico contiguous to the international boundary.

The position of Carranza was set forth in a manifesto that was issued through his government in Mexico City, in which the first chief plainly indicated his intention to defy the United States unless his demand for a reciprocal agreement was complied with. Word was sent at the same time to the confidential agent of the Mexican government here to make immediate representations to this effect.

Mexican Raiders Quickly Flee.
Douglas, Ariz., March 14.—Mexican raiders numbering 150 men crossed the border into the United States about fifty miles east of Douglas, but fled southward toward the Sierra Madre foothills, when warned by Mexican ranchers that American troops were coming from Douglas to meet them.

Carranza Offered \$20,000 for Villa.

TROOPS ON BORDER READY FOR A DASH

Cavalry Concentrated on Arizona State Line.

El Paso, March 14.—In spite of official denials, reports persisted that American cavalry on the Arizona state line has assembled for immediate crossing of the Mexican border, and that they might cross at any moment.

An advance guard of several cavalry troops was collected on that border two days ago, with the prospect that it might be the first force into Mexico.

The point where the cavalry expedition is reported assembled is near San Bernardino, Mexico.

A column entering Mexico from one of these Arizona border points would have a fairly direct route to the mountain passes in Sonora, through which it is feared Villa may escape from the Chihuahua territory into which he has retreated.

Two Mexicans were killed in Columbus the day following the Villa raid, it has been learned. They were shot by civilians who considered their actions suspicious.

Martial law went into effect along the border. American troops entrained under secret orders, are moving along the frontier as fast as the railroads can supply facilities. They are ready for the forward movement that will send them on the trail of Villa and his outlaw band.

EMBARGO ON MUNITIONS

United States Stops Shipments to Mexico by Land and Sea.

San Francisco, March 14.—An embargo on shipments of war munitions from this port to Mexican points was declared by John O. Davis, collector of the port, in accordance with instructions from Washington.

Carranza Ammunition Held Up.
Douglas, Ariz., March 14.—Carranza authorities have asked permission to pass 700,000 rounds of ammunition into Agua Prieta, Mex., but the shipment thus far has been held.

Permits previously issued to pass munitions, arms or explosives at Agua Prieta have been cancelled.

Mexican troops which arrived in Agua Prieta quickly were passed south. Ey Tigre, Mex., and Nozozari, Mex., reported the arrival of reinforcements.

WAR COURSE FOR U. OF P.

Trustees Grant Students' Request and Provost Names Committee.

Philadelphia, March 14.—The trustees of the University of Pennsylvania acted favorably upon the petition of students asking for the installation of a course of military training at the university under the direction of the war department.

Provost Smith was given permission to appoint a committee of five to work with the faculty in making plans for the course. He at once named George Wharton Pepper, John C. Bell, Dr. Robert G. Le Conte, James G. Rosen garten and John Cadwalader as members of the committee.

Say Raiders Came From U. S.

Washington, March 14.—Agents of the department of justice on the Mexican border reported to headquarters that many of the raiders who participated in the Columbus, N. GERMANS PAUSE IN VERDUN RUSH

But Violent Cannonade Continues Along the Front.

VAUX FIGHTING TERRIFIC

French Storm Foo's Trench in Le Pretie Wood—Say Teuton Losses Are Heaviest of War.

London, March 14.—A pronounced pause has come in the German offensive operations against Verdun, so far as the infantry arm is concerned, according to the official bulletins from Paris.

Sunday passed without infantry advances, and the crown prince's troops did not leave their trenches for an attack at any point Sunday night, the French war office says.

The Berlin headquarters statement confirms the French report of the comparative infantry quiet prevailing around Verdun.

All along the Verdun front and farther west along the Aisne river, gigantic artillery duels raged. The thunder of the big guns could be heard on the outskirts of Paris.

The Kaiser is again on the Verdun front and it is believed he will remain there until the battle is decided one way or another, says the Paris Matin. He is attending daily councils of war with his generals, insisting that for their efforts be made to take the fortress despite the terrible losses suffered by the Germans up to date.

The German losses in the fighting around Fort Vaux, five miles north east of Verdun, Friday and Saturday surpass all previous records in this war, according to officers who have returned to Paris from Verdun.

Time and time again, and with extraordinary courage, the Germans in columns of four deep, rushed from their trenches, only to melt away under the fire of the French 75, 150 and 210 millimeter guns, which rained shells with deadly accuracy into the marching companies. When the smoke and dust cleared nothing was to be seen but heaps of bodies.

The spur on which the fort is situated is almost perpendicular in certain places.

The German lines were forced to halt, but many Bavarian reservists climbed up on one another's shoulders and struggled up the slope, clinging to angles of rock and grasping tufts of grass.

Again and again these human pyramids collapsed into shapeless gray masses. Where the incline was easier and the attacks therefore more concentrated, the ditches below ran red with blood. At the lowest estimate the attackers lost two-thirds of their effectives.

The fighting also was desperate in the extreme when regiments from the fifteenth and eighteenth German army corps attacked the village of Vaux Friday. Dawn was breaking and over the country hung a heavy white mist, making everything invisible beyond a hundred yards. This enabled the Germans to get within rushing distance of the French front trenches, but at though they outnumbered the defenders six to one, it took four distinct assaults before the first column of Germans won the shelter of a small group of houses beyond the church of Vaux.

They then organized an assault upon the church, and the French, being unable to bring up reinforcements on account of the German curtain of fire, withdrew their advanced elements which were in danger of being surrounded. Five times the North Prussian regiments rushed to attack the church, but every time they left the shelter of the ruined houses they were beaten back by the fire from machine guns and the shrapnel from the French 58-millimeter guns.

In the meantime, in their rear, a curtain of fire was kept up by the French 72's and 210's, so that it was impossible for munitions and reinforcements to be brought up for their benefit, and the fight died down on Friday night from sheer exhaustion.

An Amsterdam despatch to the Central News says on account of the German offensive at Verdun, the Dutch-Belgian frontier has been closed for several weeks. That part south of Maastricht has been reopened and this is commented on in Holland as probably indicating that the Germans consider their offensive near an end. The despatch adds that eighty-one more hospital trains with wounded Germans from Verdun have passed through Luxembourg.

Armed Italian Ship Sails.

Washington, March 14.—Collector Malone at New York was instructed to allow the Italian steamship America to clear from that port with the two guns mounted aft, which she had on her arrival several days ago. The Italian ambassador assured the state department the guns were for defensive purposes.

Predicts German Defeat.

Paris, March 14.—"It is now positive that a great German defeat at Verdun is certain," writes Joseph Reinach, the French historian and war critic. "The Germans will never get the fortress."

FOREIGNERS IN MEXICO CITY FLEE TO COAST

Americans in Danger Because of Broken Railroad.

Mexico City, March 14.—Many foreigners are leaving the city and there is an undercurrent of excitement among all classes.

Americans virtually trapped here are in extreme danger, or will be soon.

Train communication with Vera Cruz is broken, owing to the activity of Zapatistas along the Mexican railway, particularly near Vera Cruz. The followers of General Higinio Aguilar, who is working with the Sereno Indians of the state of Oaxaca, have also been busy around Puebla and have attacked trains on the Mexican railway. Nothing of those happenings has been published in the newspapers in Mexico—not even the fact that railroad communication has been cut off "temporarily."

It is feared that as soon as the public here learns of the crossing of the border of American troops there will be a repetition of the riotous scenes of April 21, 22 and 23, 1914 when the news of the taking of Vera Cruz by the Americans reached the capital.

PEACE MR. WILSON'S AIM

Tells Scandinavian Visitors of Efforts to Avoid War.

Washington, March 14.—President Wilson assured nearly a hundred members of the Scandinavian Society of New York that he is doing everything in his power to keep the United States out of war.

The members had called at the White House to express their appreciation of his efforts.

After thanking them, the president said: "I can assure you that nothing is nearer my heart than keeping the country out of war, and I am doing everything I can do to show its preference for peace, and for justice and for the things that make it impossible for nations to fight each other—real understandings, friendships and fair dealings."

Man Drowned in River.

Marysville, Pa., March 14.—Washington Peiffer, fifty years old, of Paxton, was drowned in the West Branch of Susquehanna river, opposite Liver pool, when his rowboat was struck by a large piece of ice and capsized. Men along the bank heard his cries for help and hastened to his aid, but he sank before they arrived.

Slayer of Husband Freed.

Atlanta, Ga., March 14.—The county grand jury here refused to indict Mrs. Edward Pannell, who shot and killed her husband when, she said, he was attempting to beat her with a razor strop. She was ordered released from jail.

Livestock Burned to Death.

Seaford, Del., March 14.—A large barn, carriage house and granary on the farm of the late Alexander Butler were burned. Four horses, six cows several hogs and a quantity of hay and grain were lost. The loss is estimated at \$5000.

Chinese Typewriters.

A Chinese typewriter is a wonderful contrivance. It has 4200 characters. It has only three keys. It can make 50,000 letters or characters by combinations of the basic 4200. To write a letter you turn a cylinder upon which are the 4200 characters until the right one comes opposite the keyboard of the guide on another cylinder. After striking the printing key, just as on an American machine, you begin a still hunt for the next character which you are to print, and so on while reason lasts.—Christian Herald.

Pleasing Superiority.

"Why are there so many old jokes on the stage?"
"Oh, they go good. That is due to the feeling of superiority produced by the fact that you know the answer, while the actor glib who is being told the joke apparently does not."—Louisville Courier-Journal.

(Medical Advertising) DON'T GO TO BED WITH COLD FEET

Says: "Often Brings on Attacks of Acute Rheumatism."

An ounce of prevention is worth a pound of cure, and people who are subject to attacks of rheumatism should never go to bed with cold feet. A whole lot is being said about taking salts and effervescent tablets for rheumatism and sciatica, but those who suffer sharp twinges and painful swollen joints need something powerful to overcome their piteous suffering.

Any broad-minded druggist will tell you that one-half teaspoonful of Rheuma taken once a day is driving more rheumatism out of afflicted people than all the salts on earth. Right in this neighborhood The People's Drug Store and all druggists sell large quantities of it, and it's the surest and most inexpensive remedy—about 50 cents a bottle.

Bendersville,

Our First 1916 Message to our Farmer Friends

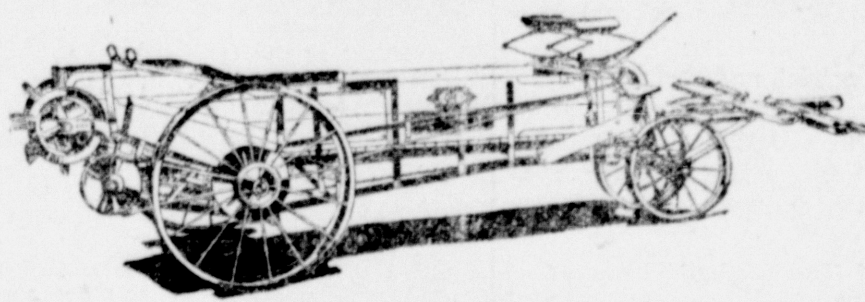

Now the farmer must needs be thinking of purchasing a new plow or cultivator or perhaps a wagon, or some other necessary farm implement. Let us tell you of the splendid, dependable line of farm machinery we sell. The very best made implements sold to-day anywhere.

Deering Binders, Mowers, Horse Rakes & Hay Tedders

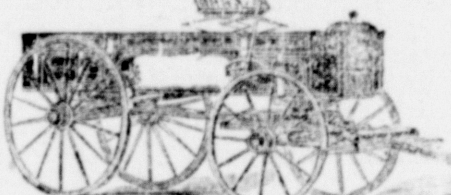

These are noted for being the best made machines on the market. They run lighter than any other make and have taken the Grand prize at all Expositions.

Hay Loaders and Side Delivery Rakes. Guaranteed perfect in construction
Syracuse Plows and Oliver Chilled Plows of all kinds.
Double and Single Row Corn Planters. Albright & International Cultivators.

We also sell the LOW
CORN KING MANURE
SPREADER. With this
Spreader you can haul more
loads in one day than with
most any other Spreader,
because you do not have to drive so far to get a load off, as it spreads more than twice
the width as the average Spreader, and runs as light if not lighter than any other
Spreader sold.

WAGONS? Studebaker and Weber

Yes we have the STUDEBAKER and WEBER. Both of these are noted for their quality everywhere. We also have the DUMP CARTS.

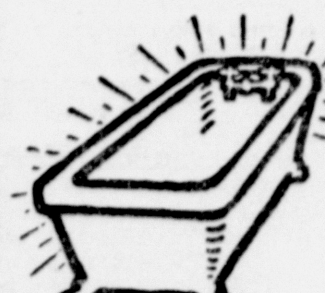

We have DISC HARROWS and other kinds of HARROWS and Small CULTIVATORS.

COME and take a look at our Line of Machinery. You will be pretty sure to find just what you want right here and we stand back of everything we sell.

it is liable to make your favorite nook a pretty shivery spot. But, with a Precision Smokeless Heater in the house, cold need have no terrors. It will warm and keep any room warm and comfortable, in spite of the coldest, rawest wind.

Gives out the most heat, at the least expense, when filled with Atlantic Rayolight Oil. Inquire at your dealer's.

Every trace of dirty, soapy water gone—the porcelain white and clean. Simple and practical, isn't it?

Surprising the number of ways Atlantic Rayolight Oil does help keep the home bright, cheery and clean. Thousands of careful housekeepers tell us (as a result of our advertised request) that Atlantic Rayolight Oil is the very best thing for such purposes as polishing windows and mirrors, brightening up linoleum and restoring dull and faded carpets.

Of course, for this kind of work, the very finest kerosene is needed; that's why these experienced, competent women use

ATLANTIC

OIL

And it's ever so much better for purposes of lighting and heating.

You see it burns slowly and economically, yielding an intense, constant, steady heat without a jot of smoke or smell. A steady, flickerless, soft, white light beams from almost any lamp in which it is burned, but to get the best and most light for the least money, use a Rayo Lamp filled with Atlantic Rayolight Oil.

You buy it certain that it will give the greatest heat, the finest light and that careful refining makes it best for household purposes. But, with all these advantages, Atlantic Rayolight Oil costs no more than the unknown, unreliable kind.

Ask your dealer for it by name—

JOHN A. COOL,

URGE SENATE TO PREPARE FOR WAR

Chamberlain Pleads For Preparedness Program.

BORAH SUPPORTS MOVE

Endorses the President's Action in Mexico, But Says No Man Knows the Consequences.

Washington, March 14.—Danger of grave complications growing out of the sending of American troops into Mexico to hunt down Villa and his bandits was urged in the senate by Senator Chamberlain, chairman of the military committee, and Senator Borah, Republican, in advocating layings aside temporarily all other legislation in order to dispose promptly of preparedness measures.

Their statements precipitated a general discussion, in which Senators Vardaman and Simmons deprecated suggestions that the United States was not prepared to deal with any situation that might arise in its relations with Mexico.

While the senate debate was in progress, Speaker Clark and Majority Leader Kitchin were reporting to their colleagues of the house on a conference with the president, who urged them to speed up the legislative program with a view to action on all important measures in time for adjournment in June. The house leaders agreed that it would be impossible to accomplish the task ahead in so short a time, although steps will be taken to hurry on with the work as rapidly as possible.

Demands for immediate action on the preparedness bills were made in the senate when the matter of taking up the public lands, water power and rural credit legislation was broached. Senator Chamberlain declares he would not be surprised if, as a result of the punitive expedition into Mexico, General Villa were proclaimed a national hero and 50,000 Mexican troops rallied to his standard to resist American troops.

Senator Borah, who has been one of the most persistent critics of the administration's Mexican policy up to this time, gave complete endorsement to the president's action, but warned congress to prepare for war, declaring that no man knew what consequences might follow the invasion of Mexico, even on a punitive expedition. He referred to the president's recent warnings to congress concerning international complications, and said congress had not heeded the warnings, but had sat still with regard to national defense legislation.

Senator Borah also said that unless there was extraordinary speeding up in congress, the national defense bill would come in the midst of a presidential campaign and would then be clouded with politics.

Senator Hoke Smith declared that the military committee could do the country no greater service than by bringing in immediately a bill to double the enlisted strength of the army as an emergency measure, leaving the general reorganization bill for a later consideration.

When Speaker Clark and Representative Kitchin returned from the White House they held a conference with other house leaders in Speaker Clark's office. It was the consensus of opinion that under the greatest pressure the president's program could not be disposed of before fall. The speaker said the house might clear the decks by September, but Republican Leader Mann said it would take until December.

FIREBUG AT QUARRYVILLE

Seven Buildings Destroyed in Blaze That Raged for Five Hours.

Quarryville, Pa., March 14.—Fire believed to have been caused by an incendiary, raged for five hours.

A general store, a saddlery, three dwellings, an ice house, a barber shop and several sheds were destroyed.

The local fire department was unable to gain control over the flames and appealed for aid from surrounding towns. Two engine companies were sent by rail from Lancaster. Estimated damages of the damage average \$55,000 partly covered by insurance.

Canadian Cities Vote "Dry."

Winnipeg, Man., March 14.—Municipal voters went "dry" by a two to one vote and redeemed the pledge of Premier Norris, elected last year, that at the earliest date possible he would submit a prohibition measure. Winnipeg carried the measure by nearly three to one. The measure is for straight prohibition.

Elevator Kills Woman.

Media, Pa., March 14.—Mrs. Sallie B. Lewis, sixty-five years old, widow of George M. Lewis, a former business man of this county, died at the Media hospital as the result of injuries received in an elevator accident in a Philadelphia store last week.

Brothers Die in Few Hours.

Hazleton, March 14.—Frank and Nicholas, the three and four-year-old sons of Mr. and Mrs. Anthony Mott of Hazleton, died a few hours apart and were buried here side by side.

Macaulay's Wonderful Memory.

It is said that Macaulay's memory was so retentive that, after reading a book once he could give all the salient points of it, and recite many long passages of it verbatim.

EXPLOSION DESTROYS SHIP

Series of Detonations Follow Fire of Twenty-four Hours in Craft.

St. John, N. B., March 14.—The British steamship Matatus, after being on fire for more than twenty-four hours, was sunk at her dock soon after a series of explosions, during which her commander and designer, Captain L. B. Gilham, was killed.

Captain Gilham's body was recovered. It is expected the hull of the vessel may be raised and refitted. The cargo, which was destined for New Zealand, probably was destroyed.

The fire was discovered early Sunday, and the Matatus, which was ready to sail, was towed back to her dock, where firemen apparently subdued the flames. Later several explosions, thought to have started from a quantity of heated calcium carbide, caused a second fire, which burned so fiercely that the sea cocks were opened and the vessel was allowed to sink.

RUSSIANS 50 MILES FROM MESOPOTAMIA

Capture Kirind, 130 Miles From Bagdad.

Petrograd, March 14.—The Russian war office announces the occupation by the Russian army in Persia of the city of Kirind, fifty miles due west from Kermanshah and situated on the road from Hamadan to Bagdad.

Kirind lies about fifty miles east of the Mesopotamian frontier and its capture places the Russians within about 130 miles of Bagdad.

Continuation of the advance is regarded as certain not only to bring relief in the near future to the British beleaguered in Kut-el-Amara, but to result in the conquest of the entire Mesopotamian region. The advance on Kirind was made by the Russian column that took Kermanshah on February 25.

The Persian advance is one of three operations which the Russians have been pushing steadily since the capture of Erzerum on February 16.

Along the Black sea coast, supported by warships, another force is moving toward Trebizond, having captured Ishphir on February 24 and Rizeh on March 7, and has now passed the Kalaputamas, a river only twenty miles from Trebizond. A third column, from the Lake Van region, captured Mush on February 18 and Bitlis on March 2.

GETS \$12,500 FOR LOST LOVE

Janitor's Wife Awarded That Amount Against Wealthy Widow.

New York, March 14.—A supreme court jury decided that \$12,500 is proper restitution for the theft of a janitor's love.

This amount was awarded to Mrs. Elizabeth Carey, the mother of thirteen children, in her \$50,000 suit against Mrs. Minerva B. Toler, a wealthy widow, for alienating the affections of her husband, Patrick C. Carey, once janitor of the Berkeley Arms apartments.

The testimony showed that the widow and the janitor first met at a movie theatre. Hundreds of telegrams, letters and postal cards bursting with erotic sentiment were introduced in evidence as coming from the fair widow.

Mrs. Wilson's Gift Aids German R. C. Kansas City, Mo., March 14.—A handkerchief donated by Mrs. Wood row Wilson to the German Red Cross bazaar here was auctioned off for \$4.50 to Conrad H. Mann, former Federal League magnate. The sum obtained from the handkerchief swelled the total raised by local German Red Cross work to \$1100. It was announced.

DOINGS OF THE VAN LOONS

What Fashionable Women Will Wear This Season.

Styles Described by G. W. WEAVER & SON

— OF —

The Store That Sells Wooltex.

A graceful, youthful figure.

That will be the aim of every woman who wants to be in style, this Spring. This does not mean that women will try to look like sixteen-year-old girls.

Rather, they will choose clothes that give graceful, youthful lines, lines that indicate the natural poise, activity and attractiveness of young womanhood.

Skillful tailoring has much to do with giving clothes the graceful curves of youth. And just as the good cook requires the best ingredients for her cakes, so the expert tailors require the best materials for garments that they recommend to stylish dressers.

FASHION'S PROMINENT FEATURES

In suits and coats, the most fashionable features are the incurve at the waist, without being close fitting, and the sharply flared rippling plaits below the waistline.

Many jackets and coats have almost a wing-like flare. This feature is carried out in a smaller way in the flared cuffs which finish the new bell sleeves.

Plain materials and checks are preferred for suits. The plain materials are frequently ornamented with silk embroidery and inlays of taffeta.

For sport coats there are new novelty weaves of white wool and fancy coating in navy, Copenhagen Holland blue, old rose, maize, green and red.

Silks are very fashionable and promise to grow more popular as the season advances.

Smartest Skirts Are Short

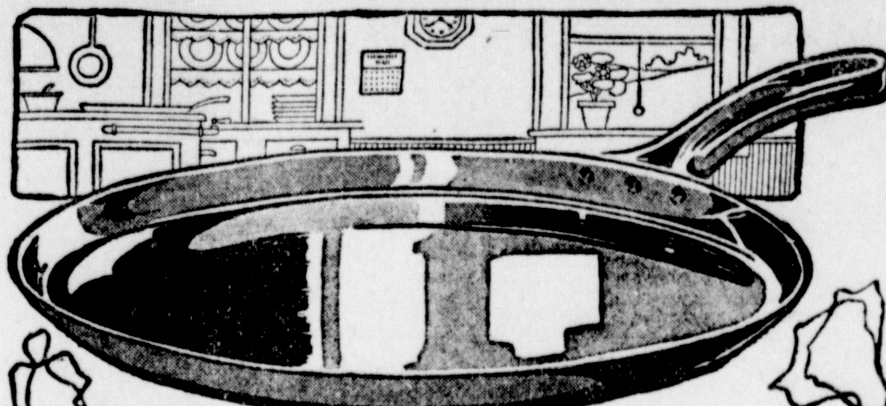

As skirts are all fuller, either in circular models or plaited, they give the smartest appearance when worn quite short.

Eight to ten inches from the ground is the most fashionable length. Even conservative women will wear their skirts six inches from the ground.

The new short skirts are most convenient. With trim footwear and hosiery to match, they are genteel and very pleasing in appearance.

This best store in Adams County is Now Showing Assortments of Wooltex and other Ready-to-wear Women's and Children's Clothes seldom found outside of a large city store.

Karo The People's Syrup in Every American State

IMAGINE the thousands of people who are enjoying Karo with griddle-cakes every morning for breakfast. A multitude of happy folk from the Atlantic to the Pacific. Old, young and the middle aged—rich and poor—laboring man and bank president—everybody enjoying the National Syrup, Karo.

There is a fine place for Karo in your home and it's well to order by the dozen cans or more.

Send Karo Labels and Get This Solid Aluminum Griddle At a Saving of \$1.40

Send us 85c. in stamps or money order for this 10 1/2 inch Solid Aluminum Griddle which sells in stores regularly for \$2.25. We will send it to you with all forwarding charges prepaid provided you send us with the remittance labels from 50 cents worth of Karo.

Our reason for placing this griddle in your kitchen for less than wholesale cost is because we want Karo used on the finest cakes that can be baked—so everyone will know how delicious it is. The griddle needs no greasing—and there is no smoke in the kitchen. The griddle heats uniformly over entire baking surface so each cake is baked all alike all over.

The griddle is light to handle—bright as a dollar on both sides and easily kept so.

Send at once and get your griddle while they last.

OPEN NOSTRILS! END A COLD OR CATARRH

How To Get Relief When Head and Nose are Stuffed Up.

Count fifty! Your cold in head or catarrh disappears. Your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more snuffling, hawking, mucous discharge, dryness or headache; no struggling for breath at night.

Get a small bottle of Ely's Cream Balm from your druggist and apply a little of this fragrant antiseptic cream in your nostrils. It penetrates through every air passage of the head, soothing.

Everything in Its Turn. To everything there is a season and a time to every purpose.—Ecclesiastes

The Range Your Wife Wants

Does your wife like a range with plenty of gleaming nickel and elaborate design, or one plain, simple, dignified?

Does she prefer a steel or cast iron range; one with a warming oven or shelves?

Will she use a reservoir for heating water, or water front?

Does she need a big powerful baking oven, or will a smaller one do?

She can find what she wants at our store room. We have over a carload of ranges of handsome design, and shall be pleased to have you call and look them over whether or not you want to buy. Also have a large assortment of enamel ranges that require no blackening.
